

This year I plan to use the Mcdougal Littell/Houghton Mifflin textbook, Algebra and Trigonometry Structure and Method: Book 2. The extended ISBN is 9780395676103, and can be purchased used from a variety of book sites.

I have used www.abebooks.com and like it. The ISBN for the solution manual is 9780395677650. Please contact me before you purchase the solution manual as there are several people who already have one that you can borrow or I may be able to purchase one at a discounted price.
